# WEATHER

## WEATHER SYNOPSIS BY REGION:

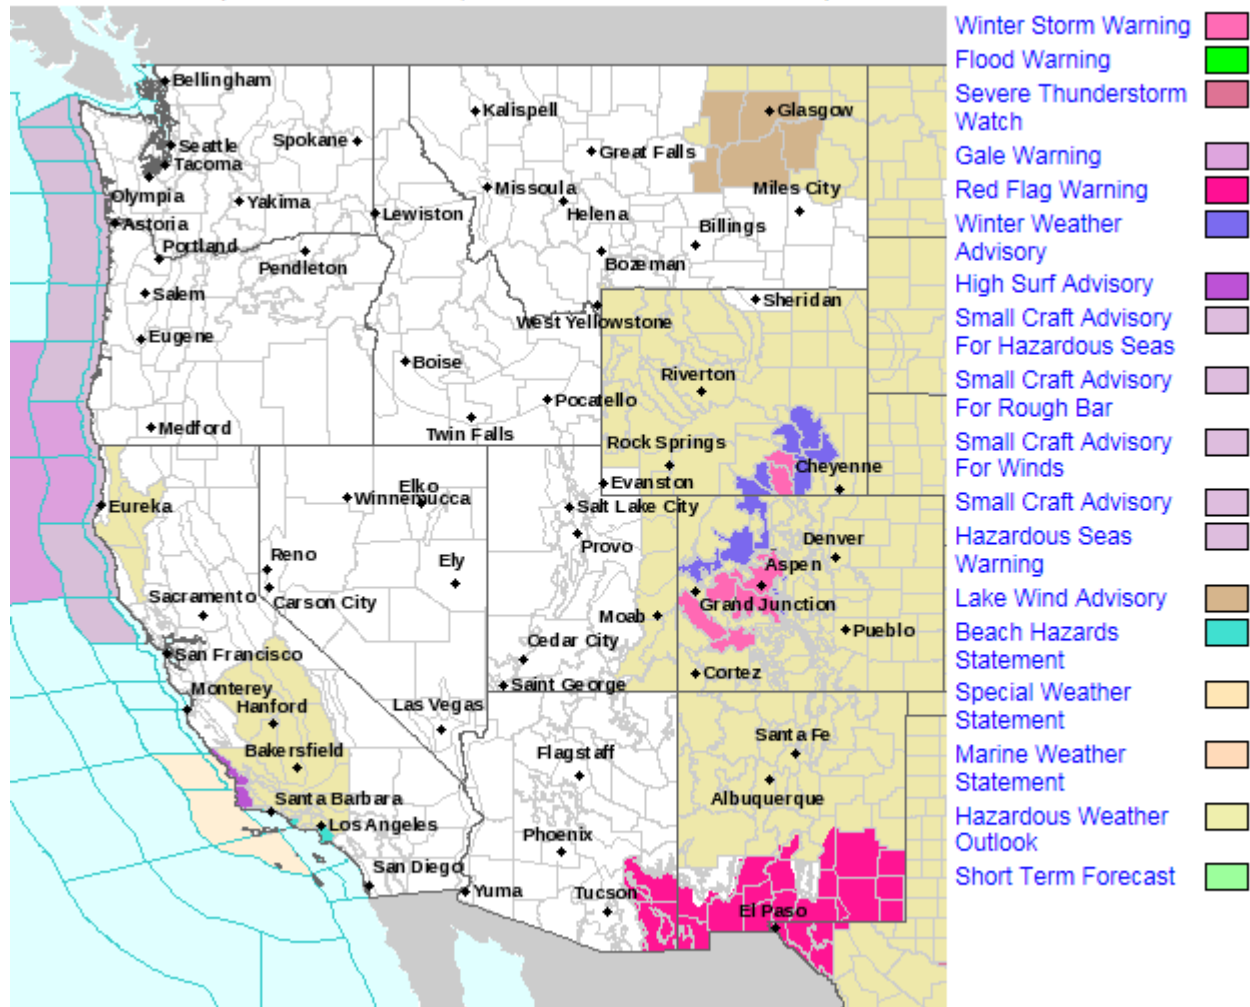

### **Northern Region**

Very warm and dry conditions are expected over the weekend and Monday under general area high pressure. There is a slight threat of mountain thunderstorms in the afternoons and evenings. A cooling trend begins Tuesday with higher daytime relative humidity as a low pressure trough digs in and moves inland from the coast. Mountain showers or thunderstorms are possible Tuesday then over all areas Wednesday and Thursday as the system moves eastward across the area. Daytime temperatures drop to near normal by Thursday.

### **Southern Region**

A weak low pressure system will develop in the vicinity of Southern California through early next week bringing stronger onshore flow with a cooling trend. A deepening marine layer with increasing humidities, gusty west winds in the mountains and deserts. Wednesday and Thursday, a colder low pressure system from the northwest will move into Southern California bringing continued cooling and a chance of showers. Another low pressure system from the northwest is possible for next Friday and Saturday which would continue the chances for showers.
